**SACRAMENTO UPDATE**

**Pursuit of County Position on Legislation**

**AB 2871 (Berg)**, as introduced on February 20, 2004, would repeal the requirement that a city or county authorize its needle exchange program through a declaration of a local emergency. It would authorize clean needle exchange programs upon the action of a county board of supervisors, and the local health officer or health commission, or upon the action of a city council, the mayor, and the local health officer. AB 2871 would require the needle exchange program to be part of a network of comprehensive services to combat the spread of HIV and hepatitis, subject to the availability of funding. AB 2871 is identical to County-supported AB 946 (Berg) which was vetoed by Governor Davis on October 9, 2003.

The State Department of Health Services reports that syringe exchange programs have proven to be an effective public health intervention that reduces transmission of HIV and does not encourage illegal use of drugs. The Health Officers Association of California and other proponents of AB 2871 contend that permanent needle exchange programs would facilitate the use of this effective prevention method on a wider basis across the State. County boards of supervisors would maintain control over programs, but not be burdened by declaring a state of emergency every two weeks.

The County Department of Health Services recommends that the County support AB 2871 because it will significantly increase the ability of public health organizations to control the spread of deadly blood-borne diseases such as AIDS and hepatitis C, and we concur. Consistent with County support for AB 946 in 2003, **our Sacramento advocates will support AB 2871.**

AB 2871 is sponsored by the Health Officers Association of California and supported by AIDS Project Los Angeles, Alameda County Board of Supervisors, American Civil Liberties Union, Drug Policy Alliance, California National Organization for Women, California Primary Care Association, City of Long Beach, County Alcohol and Drug Program Administrators Association of California, Yuba County Health and Human Services Department, Humboldt County Board of Supervisors, Humboldt-Del Norte County Medical Society, and the Santa Clara County Board of Supervisors. It is opposed by the California Narcotic Officers' Association and the Capitol Resource Institute.

AB 2871 passed the Assembly Health Committee on March 30, 2004 by a vote of 12 to 4.

**AB 2963 (Pacheco)**, as amended on March 24, 2004, would require the State Department of Health Services (SDHS), by January 1, 2005, to evaluate the 1 to 6 licensed nurse-to-patient ratio currently required in health facility medical/surgical care units. This ratio was established by regulations implementing AB 394 (Kuehl) of 1999, which became effective on January 1, 2004. The evaluation would be required to take into consideration the number of nurses available, nursing position vacancy rates, and the cost to hospitals to implement the existing ratio as well as the more stringent 1 to 5 nurse-to-patient ratio which will become effective on January 1, 2005.

If SDHS determines that, due to the shortage of nurses in the State, it would be impossible for health facilities to meet the 1 to 5 ratio at all times in medical/surgical care units the requirement would not be imposed until a subsequent evaluation found it possible to implement. SDHS could only require compliance when it was able to demonstrate there was a sufficient supply of nurses available to implement the ratio without reduction of available beds, the requirement would result in measurable improvements in patient care, and the cost to move from the 1 to 6 ratio to a 1 to 5 ratio would not exceed projected available revenues.

The County Department of Health Services (DHS) indicates that it will be difficult, if not impossible, for County hospitals to comply with the 1 to 5 nurse-to-patient ratio because of the Statewide nursing shortage and the massive budget crisis already facing the Department. County hospitals will be unable to compete successfully for the few available nurses because private hospitals will be able to offer higher salaries and other incentives to attract nurses. Therefore, DHS recommends that the County support AB 2963 and we concur. Consistent with County opposition to AB 394 in 1999 and the February 19, 2004 joint Los Angeles County and Orange County letter to Governor Schwarzenegger requesting that the State waive the imposition of sanctions for noncompliance with the AB 394 nurse-to-patient ratios, **our Sacramento advocates will support AB 2963.**

AB 2963 is sponsored by the California Healthcare Association and supported by the United Hospital Association. It is opposed by the American Nurses Association of California, California Nurses Association, and Service Employees International Union. AB 2963 has not yet been set for hearing.

**SB 1433 (Romero)**, as amended on March, 22, 2004, would establish the Trauma Care Fund Advisory Board, require the California Emergency Medical Services Authority to designate a representative from the Authority to oversee trauma system development, and allow taxpayers to designate on their State income tax returns that a portion of their State income tax refunds be donated to the California Emergency Trauma Fund.

In 2001 a white paper entitled "California's Trauma Care: In Crisis" identified the two major problems facing trauma care in California: 1) lack of a dedicated trauma care funding source, and 2) lack of a Statewide trauma system. Although legislation was subsequently passed which established the Trauma Care Fund to allocate funds for distribution to local trauma centers and which required local Emergency Medical Services Agencies to implement a trauma care system, California is still without a dedicated source of trauma care funding and continues to lack a Statewide trauma care system.

The Trauma Care Fund Advisory Board created by SB 1433 would be required to: 1) review fund allocations and expenditures, 2) assess funding needs for trauma centers and a Statewide trauma system, 3) assess the availability of funding from other sources, including Federal funding and private donations, and 4) recommend to the Authority criteria and standards for designating trauma centers for receipt of trauma care funding.

The Department of Health Services recommends that the County support AB 1433 because the creation of a stable funding source for trauma care is critical for all trauma centers in California, including the 13 centers in Los Angeles County, and we concur. Consistent with existing County policy to support proposals to provide permanent, stable funding for the County's public and private emergency and trauma care system, and our efforts over the years to secure a State General Fund contribution for trauma care, **our Sacramento advocates will support SB 1433.**

SB 1433 is sponsored by the author and supported by the California Nurses Association, California Healthcare Association, College of Emergency Physicians, California Medical Association, and the Save California Trauma Centers Coalition. There is currently no registered opposition. The bill has not yet been set for hearing.

Existing law provides that capital facility fees charged to public agencies (such as the County) by public utilities such as the Los Angeles Department of Water and Power (LADWP) must be nondiscriminatory, which means that LADWP is only allowed to charge the County its pro-rata share of LADWP capital costs, based on the County's power usage.
